SAMPLE SPECIFICATIONS

Supreme Airforce High Speed Low Energy Hand Dryer

General

Scope—Supply and install Supreme Airforce High Speed Low Energy hand dryer as shown on the plans.

Materials

Supreme Airforce High Speed Low Energy Hand Dryer with colour coded aluminium cover or stainless steel cover.

Workmanship

Remove hand dryer cover by turning the two security allen screws on the bottom of the cover clockwise, until the bottom of the cover can be separated from the base. Push cover upwards to unlatch from top of the base plate.

Washrooms

Mount at recommended height from floor with suitable fixing. If possible locate at least two mount screws in a stud for additional security.

Electrical connection to be made by hard wiring back to isolating switch mounted in a convenient position in accordance with all electrical codes of practice.

Replace cover in reverse of removal and turn security bolts anti-clockwise till snug, do not over tighten.

Completion

Leave work clean, remove all trade rubbish from the site and leave the hand dryer cleaned and in working order.

Pass over warranties/manuals (suppliers 36 months material and workmanship guarantee) to the principal.

Give maintenance instructions to principal.
