

COATED HANDLING GLOVES

DUTY

A COMPREHENSIVE FEATURE SET ENGINEERED AS STANDARD IN OUR COATED GLOVE RANGE

A PREMIUM CUT F NITRILE PALM COAT GLOVE

DUTY® CUT F is engineered for the highest level of cut performance, comfort and durability with an assured nitrile grip finish for dry and oily conditions. If you want the latest that glove technology has to offer, do your **DUTY**.

highABRASION

25% better abrasion performance than equivalent alternatives, greatly extending glove life.

touchTECH

Touch screen compatible on all areas of the coating for electronic device accessibility.

webTOUGH

Reinforcing in a high wear area between the thumb and index finger is stronger so glove life is greatly extended.

heatHOLD

Contact heat performance of 100°C for 15 seconds so hot items can be handled for reasonable periods.

healthyHANDS

All gloves undergo Anti-bacterial processing and are OEKO-TEX skin safe certified, so hands are protected from contaminants.

CUT F PERFORMANCE WITH A NITRILE GRIP

- Market leading Cut F protection
- Palm nitrile coat for grip, handling, and performance.
- Light-weight design minimising hand fatigue
- Open back yarn for fit and comfort
